

Dear Parent / Guardian

Home access grants – for computers and internet

It is now crucially important for learning that your child has access to a computer and the internet. The government has recognised this and now wants to support families who may have difficulties getting to a computer and internet.

You maybe find that you are eligible for a free grant which would entitle your child to one of the following depending on your need:

- 1. A full package (a computer, one year's internet access, service and support)**
- 2. A computer with service and support only**
- 3. One year's internet access only**

You can complete an eligibility check and access an application form by visiting <http://www.homeaccess.org.uk>.

If you are not online and have no access to a computer you can also phone the Home Access Grant Helpline on 0333 200 1004* for advice and a copy of the application pack.

We have been advised that this funding is not something which will be in place for a long period of time. Therefore if you are eligible it is the Academies advice that you apply as soon as possible.

Mr Cregan

Assistant Principal
