

# Subject Evidence for Determining Teacher Assessed Grades Summer 2021

## Overview

On 4<sup>th</sup> January 2021, the government announced that external examinations in summer 2021 could not go ahead as planned. In the place of external examinations, teacher assessed grades will be produced and submitted to the awarding (exam) bodies. These grades will be based on a range of evidence completed as part of the course and demonstrate the candidate’s performance on the subject content they have been taught. All teacher assessed grades will be internally moderated prior to submission to the awarding bodies. External moderation will be conducted by the awarding bodies who will request samples of the assessment evidence used to determine the teacher assessed grades.

Each department will use a range of evidence to determine their teacher assessed grades. Full details of the evidence that will be used for each qualification can be found below.
