

Humanities

Our Changing World:

- Looking at the impacts of physical and biological weathering.
- How to be sustainable.
- How we can make the correct choices to protect the planet that we live in.

English

Year 6 will be focussing on ensuring that their writing is grammatically correct and in the correct tone. They will practice different skills whilst writing:

Narratives

A balanced argument

A non-chronological report

Maths

Children will be focussing on:

- Fractions including: adding and subtracting fractions; multiply fractions by integers; dividing fractions; solving problems involving fractions; comparing fractions.
- Decimals including: converting between decimals and fractions; dividing using decimals.

RE

Children will learn about the order of the Mass and the significance it has to Catholics around the world.

PSHCE

Thinking about the goals that we have for ourselves this year, what the barriers might be and how we can overcome these.

Art/DT

Photography. Capturing photographs of scenery.

Spanish

Continuing to build on pre-existing knowledge.

Science

We will be looking at how data is presented in different ways and how to read the data.

PE

Basketball – building on children's collaborative skills and technique.
