

Parent Elections

Our three parent nominees are:

Abbygale Cox

St Matthew Academy stands tall with a good OFSTED rating; I would like to dedicate time, helping the school continue to take pride in its improvement and development.

My name is Abbygale, I have a degree in Psychology and run a specialist production - managing a distinct group of people. I coordinate the running of a recognised qualification, manage contracts and small budgets, apply for grants and ensure the health and safety of the individuals in the group.

I believe these skills and my ability to think objectively and critically will be a great benefit to this very important role.

Rajiv Nair

I have been an associate parent governor during the last year. My professional experience lies in finance and communications. I also have experience in implementing health and safety regulations

Last year the school posted impressive results (financial and non-financial) as well as scored high in assessments. I believe this was in some small measure due to the effectiveness of the elected governors, whom I was fortunate to be a part of

Chevon Whyte

Hello, I hope this finds you well,

I would like to become a Governor, to share my ten years plus, experience professionally and academically in international business development; and international relations.

In my role, I liaise with civil, governmental, and Intergovernmental organisations to implement peace and sustainable practices in the interest of humanity.

In this nature, we recognise that when you build a child's wellbeing, self-esteem and address their basic needs, it results in happy and healthy children, families and good grades.

Although I am a UN Economic and Social (ECOSOC) ambassador and Chaplin, I have prioritised Well-being and Emotional quotients to reduce bias and increase understanding, which is very relevant when dealing with people and families.

In addition, as a parent alongside my transferable skills, I can proactively contribute to the children, ST MATTHEWS, staff, and students through projects and partnerships.

As a candidate from a diverse grassroots background, I offer a lived, professional, and academic experience that is relatable and holds spaces for our differences to be leveraged as strength in a global community. Thank you for your time, it's much appreciated, and I look forward to speaking with you soon.
