

The performing arts curriculum is underpinned by core principles delivered in a fun, engaging and stimulating way. Through our curriculum we aim to create pupils who are confident performers, creative composers and analytical evaluators.

Creating an atmosphere of **awe and wonder** within classrooms by introducing inspirational industry professionals, exploring exciting practitioners and showcasing exemplary student performances.

Promoting **academic excellence** through rich discussions to develop deep analytical evaluators.

Building and consolidating the **key skills** involved in composing, performing, analysing and evaluating through teacher modelling, student rehearsals and performance.

## Performing Arts at SMA Our Curriculum Vision

**Bringing to life** and appreciating the cultural diversity of our students, by providing a skill set that can be used in and beyond the classroom environment.

Providing **innovative** and creative opportunities to allow pupils to evolve as independent composers and performers.
